

Exponential

$y = Ae^{bx} + C$

$\delta x$

☐

$\delta y$

☐

| Parameter           | Value     | Uncertainty |
|---------------------|-----------|-------------|
| A [start: 8.90e+00] | 1.768e-23 | 7.906e-24   |
| b [start: 1.00e+01] | 1.000e+01 | 0           |
| C                   | 2.000e+00 | 0           |

Jacobian not full rank, uncertainties may be zero

SSR = 2.26e+41
